

Graduate To A Better Life In Less Than One Year!

Scott DiMaggio, MA (with daughter Nikki during a Kid's Day Lab)
"As a family, my wife and I discussed the need for something more stable than my job as a Sales Associate. Since I love

helping people, the Medical Assisting program was the answer. The most important thing I learned was how to interact with patients – so I'm not scared of them and they're not scared of me! I've been working at a family practice in Bakersfield and—no matter where we go—I can take my training with me!"

Brenda Perea, COA
"Before going back to school, I was a grocery store cashier. After completing the Computer Office Administration program, I began working

as the Receptionist at a local agricultural business. I discovered my love for numbers while at CCC and now I've been promoted to Accounting Clerk. Honestly, I couldn't have done it without this specialized training. No matter what I encounter on the job, I'm prepared to handle it!"

Thomas Romayor, HIPS
"After having worked in retail for the past five years, I was looking for a career that would challenge and interest me. The college staff responded quickly to my inquiry and I was soon enrolled in the Health Information

& Patient Services program. Upon completion of the program, I was hired to work the front desk at a sports & medicine facility in Monterey. My recent training proved beneficial: it's been only a few months and I am already cross-trained in other departments. I found something I could do – and do well – and I couldn't be happier!"

Congratulations To Our Career-Bound 2011 Graduates!

Computer Office Administration

Maria Arroyo Zavala, Soledad
 Shannon Bearing-Kleindienst, Marina
 Ralph Brooks, Seaside
 Carina Ceja, Salinas
